

INT-35-0002

Intratone 35-0002-EU: 1-10 Way Video GSM Intercom Kit with DD-02 Panel + 1 Door Central Unit + 4G Module

Description

The Intratone 35-0002-EU is a comprehensive and robust 1-10 way video GSM intercom kit, offering advanced access control and communication for multi-tenant buildings. This kit combines a vandal-resistant DD-02 video panel, a powerful 1-door central unit, and a 4G transmission module, enabling real-time remote management and seamless communication via video calls to smartphones/tablets and audio calls to landlines.

Kit Contents:

- **1 x DD-02 Video Panel (Stainless Steel):** The external door station designed for durability and ease of use.
- **1 x 03-0102 1-Door Central Unit:** The core controller for the access system.
- **1 x 4G Transmission Module:** Provides the wireless connectivity for remote management and calls.
