

STEALTH300ABP

STEALTH300ABP: Black Maglock Armature Plate for Slimline Stealth Maglocks

Description

The STEALTH300ABP is a purpose-built armature plate designed to streamline the installation of slimline Stealth magnetic locks. Finished in a modern stealth black, this plate provides a clean and non-invasive mounting solution for the armature, eliminating the need to drill through the door. With its fire-rated construction and surface-mount design, the STEALTH300ABP is the ideal choice for projects where a neat aesthetic, ease of installation, and safety compliance are all essential.
