

STEALTH02-VP

STEALTH02 Series: Black Monitored Slim Maglock with Door Status Options

Description

The STEALTH02 series provides a sleek, high-performance, and secure solution for single doors. With a robust 600lbs holding force and a modern stealth black finish, these slimline magnetic locks are designed for indoor applications where both aesthetics and comprehensive security feedback are required. The series offers two variations: the STEALTH02, which provides essential lock status monitoring, and the STEALTH02DS, which includes an additional door position monitoring feature.

Technical Information (Common to both models):

- **Holding Force:** Up to 275kg (600lb)
- **Current Draw:** 500mA @ 12Vdc / 250mA @ 24Vdc
- **Voltage:** 12Vdc or 24Vdc (selectable)
- **Features:** Fail-safe, Anti-residual magnetism, MOV protection, Fire rated.

Please Select From The Following Option:

- **STEALTH02:** A black slimline monitored maglock that provides lock status indication, confirming whether the lock is engaged or disengaged.
- **STEALTH02DS:** An advanced version of the black slimline monitored maglock that includes a reed switch to provide both lock status and door status monitoring (open/closed).

Product Specifications

Weight	kg
Brand	<i>Stealth Locking</i>
