

STEALTH500ABP

STEALTH500ABP: Black Standard Maglock Armature Plate

**Description**

The STEALTH500ABP is a high-quality armature back plate designed to simplify and improve the installation of standard magnetic locks. This plate provides a clean and non-invasive surface-mount solution for the armature, eliminating the need to drill a through-hole in the door. With a modern stealth black finish and fire-rated construction, the STEALTH500ABP is the ideal choice for projects where a neat aesthetic, ease of installation, and safety compliance are all essential.

**Technical Information:**

- **Dimensions (L x W x D):** 188mm x 63mm x 9mm
- **Finish:** Stealth Black
