

RGL-WP-EBSS25/PTE

RGL WP-EBSS25/PTE: Weatherproof Stainless Steel Exit Button

Description

The RGL WP-EBSS25/PTE is a highly durable and reliable "Push to Exit" (PTE) button, specifically designed for use in harsh external and sensitive internal environments. With its robust stainless steel construction, high ingress protection rating, and double-pole contacts, this momentary switch provides a secure and long-lasting method for door release.

Technical Specifications:

- **Contacts:** Double pole N/O - N/C
- **Output:** 4 AMP contact @ 30V AC/DC
- **Ingress Protection:** IP65
- **Operating Temperature:** -20°C to +60°C
