

Visto, the IoT video doorbell

 **Comelit**[®]
Passion. Technology. Design.

Imagine the convenience of being at work and do not have to worry about a delivery; of being able to answer and open the door from the terrace, the couch or the garden; the ability to let your kids go inside without being at home. With Comelit Visto you can do this and more, like receiving a notification when someone walks down you alleyway, or recording 24/7 what happens in front of your door.

Answer wherever you want

PUSH TO RECORD DIRECTLY ON YOUR DEVICE

Visto is wisely designed by architects based in Milan, Italy. Its technology along with our signature design is a killer combination! Visto is available in three different finishes: Cloud White, Silver Mist and Dark Graphite.

The app is available for download free of charge from App Store and Google play. App main features are the ability to record 24/7 on the cloud (on subscription), or to record live events directly on your mobile; Manage all of your doorbells/cameras and set motion detection on all of them; One click to set «at home» or «away» mode on all devices.

Complete Visto Range

Visto2

A TRUE HARD WIRED SOLUTION, SO YOU DON'T HAVE TO WORRY ABOUT BAD WIFI

The Visto 2 utilizes the existing 2 wires from a standard doorbell and send power and data through those wires to establish a consistent and reliable signal for the Smart Video Doorbell with its unique technology, to communicate to the app on your smartphone or tablet.

VistoWiFi

THE BEST SOLUTION FOR USERS WHO HAVE A STRONG WIFI SIGNAL

The Visto WiFi video doorbell is an Italian designed smart doorbell which allows audio video communication from your door to your smart phone or tablet, while utilizing your already existing doorbell wiring only for power supply.
